

## Fox's Burton's Companies (FBC) UK Limited Emissions Disclosure FY24/25

Fox's Burton's Companies (FBC) UK Limited ("FBC" or "FBC UK") performs a full GHG inventory of its Scope 1, 2 and 3 GHG emissions on an annual basis. The reporting period of the inventory covers a financial year running from 01/09/2024 to 31/08/2025.

	BASE YEAR FY22/23 Total emissions (tCO <sub>2</sub> e)	FY23/24 Total emissions (tCO <sub>2</sub> e)	FY24/25 Total emissions (tCO <sub>2</sub> e)	Change FY22/23 to FY24/25
Scope 1	24,380	22,958	22,895	-6.1%
Scope 2 (location-based)	11,827	11,257	9,748	-17.6%
Scope 2 (market-based)	21,875	24,793	26,496	21.1%
Scope 3, Category 1: Purchased goods and services	668,132	617,099	594,605	-11.0%
Scope 3, category 2: Capital goods	5,883	2,748	4,251	-27.7%
Scope 3, category 3: Fuel and energy-related activities	7,796	7,416	7,449	-4.4%
Scope 3, category 4: Upstream transportation and distribution	21,424	23,286	24,583	14.7%
Scope 3, category 5: Waste generated in operations	258	125	377	46.2%
Scope 3, category 6: Business travel	704	631	1,188	68.8%
Scope 3, category 7: Employee commuting	2,459	2,121	2,475	0.7%
Scope 3, category 8: Upstream leased assets				N/A
Scope 3, category 9: Downstream transportation and distribution	1,099	1,031	1,034	-5.9%
Scope 3, category 10: Processing of sold products	41	35	42	1.7%
Scope 3, category 11: Use of sold products				N/A
Scope 3, category 12: End-of-life treatment of sold products	3,307	3,319	3,327	0.6%
Scope 3, category 13: Downstream leased assets				N/A
Scope 3, category 14: Franchises				N/A
Scope 3, category 15: Investments				N/A
<b>Total: scope 1, scope 2 market-based, scope 3</b>	<b>757,357</b>	<b>705,561</b>	<b>688,721</b>	<b>-9.1%</b>
FLAG emissions (tCO <sub>2</sub> e)	551,869	510,618	486,877	-11.8%
Scope 1 & 2 (market-based) combined	46,255	47,751	49,391	6.8%

### Exclusions

There are no exclusions from the inventory.

**Fox's Burton's Companies (FBC) UK Limited**

**Registered office:** St Paul's House, 8-12 Warwick Lane, London, EC4M 7BP. **Registered Number:** 02086754

**Fox's Burton's Companies (FBC) UK**  
St Paul's House  
8-12 Warwick Lane  
London  
EC4M 7BP

### Data limitations

The inventory is based on the GHG Protocol Corporate Standard with an operational control boundary and emissions factors applied to activity data for all categories except:

- 3.1 Purchased services only – spend data based
- 3.2 Capital goods – spend data based
- 3.4 & 3.9 Transport & Distribution – blend of activity data, Eco Transit modelling and supplier estimates
- 3.7 Employee commuting – working patterns combined with estimates of travelling distance and transport mode to estimate emissions

For 3.1 Purchased goods, activity data is used with primary emissions factors from suppliers for 52% of the emissions in this category and the remaining 48% uses carefully selected emissions factors from databases such as Agribalyse, Ecoinvent and DEFRA/DESNZ.

We are working with suppliers to increase the coverage of primary data over the next 1-2 years on the highest impact commodities not yet available. We review the data quality of each category with the support of expert consultants. Our immediate focus on data quality is improving the transport and distribution categories, aligning methodologies and coverage from the range of third-party logistics providers. Any material changes affecting the base year will be communicated and adjusted in future disclosures in line with our recalculation policy.

### Verification of GHG emissions

Whilst we work closely with expert consultants to create the GHG inventory and activity data is internally reviewed and checked, it is not currently verified by an independent verification body.

### Target description

Fox's Burton's Companies (FBC) UK Limited commits to reach net-zero greenhouse gas emissions across the value chain by FY2050.

Near-term targets:

- Energy & Industry: Fox's Burton's Companies (FBC) UK Limited commits to reduce absolute scope 1 and 2 GHG emissions 50.4% by FY2032 from a FY2022 base year.
- Fox's Burton's Companies (FBC) UK Limited also commits to reduce absolute scope 3 GHG emissions from purchased goods and services, fuel- and energy-related activities, upstream transportation and distribution, waste generated in operations, and business travel 30% within the same timeframe.
- FLAG: Fox's Burton's Companies (FBC) UK Limited commits to reduce absolute scope 3 FLAG GHG emissions 36.4% by 2032 from a 2022 base year (the target includes FLAG emissions and removals).

- Fox's Burton's Companies (FBC) UK Limited commits to no deforestation across its primary deforestation-linked commodities, with a target date of December 31st, 2025.

Long-term targets:

- Energy & Industry: Fox's Burton's Companies (FBC) UK Limited commits to reduce absolute scope 1 and 2 GHG emissions 90% by FY2050 from a FY2022 base year.
- Fox's Burton's Companies (FBC) UK Limited also commits to reduce absolute scope 3 GHG emissions from purchased goods and services, fuel-and energy-related activities, upstream transportation and distribution, waste generated in operations, business travel, and downstream transportation and distribution 90% within the same timeframe.
- FLAG: Fox's Burton's Companies (FBC) UK Limited commits to reduce absolute scope 3 FLAG GHG emissions 72.0% by 2050 from a 2022 base year (the target includes FLAG emissions and removals).

#### Target progress

Our targets were verified by Science Based Targets initiative (SBTi) in May 2025 and we continue to develop detailed action plans to achieve them. As the GHG inventory for FY24/25 mostly covers the period prior to targets being approved, the phasing of the impact of our action plans will become progressively apparent over future disclosures and we will state the percentage target completion for each target.

Changes in emissions by sub-category between our FY22/23 base year and FY24/25 are shown in the GHG inventory table, with the headlines being:

- Overall reduction of 9% in emissions across scope 1, scope 2 market-based and scope 3
- Increase in combined scope 1 and scope 2 market-based emissions of 6.8%, driven by an increase of 26% in market-based emissions factor for electricity following a change of supplier since the base year. Actual energy consumption reduced, but not sufficiently to offset the impact of the change of electricity supplier. We are working on plans to source renewable electricity, which will bring a significant reduction on emissions.
- Decrease in purchased goods and services emissions of 11%, driven by an 11.8% decrease in FLAG emissions from sourcing fully segregated RSPO certified palm oil with a corresponding progressive decrease in land use change impact as the linear discounting of deforestation-free supply continues. We have also been working with key suppliers on reductions in the intensity of cocoa-related and flour ingredients.

#### Actions towards meeting Science Based Targets

We are developing decarbonisation plans across all three scopes and intend to include details on the associated actions and progress made in our next disclosure. Key elements of the plans involve reducing scope 1 and 2 emissions from our operations in line with near-term and net zero targets and working closely

with ingredients and packaging suppliers to achieve our scope 3 FLAG and E&I targets. It is anticipated that this work will form the basis of a broader climate transition plan as we engage with a wide range of stakeholders on this in the coming year.

We have met the target of 31st December 2025 of no deforestation in the primary deforestation-linked cocoa and palm oil commodities.

There is no use of carbon credits in our GHG inventory.
