

SCRAMBLED 'EGGS'

Ages 6+ | Family based | 2+ players | Easter Theme

AIM OF THE GAME

- ▶ Put the 'eggs' back in the correct order after they have been scrambled up

EQUIPMENT

- ▶ Table tennis balls, different coloured rolled up socks, or paper and pens

HOW TO PLAY

- ▶ Get creative and design five 'eggs' that are all different colours or have different patterns, pictures, or numbers on.
- ▶ If using rolled up socks, choose some different coloured ones to play with. If using table tennis balls, design patterns on them with pens, or alternatively draw eggs on paper and, with an adult's help, cut them out.
- ▶ One player lays the eggs out in a safe space in a specific order that they remember or write down.
- ▶ The second player has until the count of 10 to remember the order of the eggs, before they turn away or cover their eyes.
- ▶ The first player then scrambles up the 'eggs' and put them into a new order.
- ▶ Once this is done, their playmate opens their eyes and must put the 'eggs' back in the correct order.
- ▶ Switch over roles and play again.

GAME VARIATIONS

1. Add a time limit of counting to 10 to put the 'eggs' back in the correct order
2. Change the time available to look at and remember the order of 'eggs' or change the number of 'eggs' used.
3. Make the game more physical by setting up the 'eggs' at one end of a space and the player remembering the order of 'eggs' at the other on a start line. They move out to recall the order of the eggs, before returning to the start line whilst the 'eggs' are scrambled up. They then move back out to the 'eggs' and can only change the position of one 'egg' at a time, returning to the start line after each 'egg' change. This can work well if playing with more players as a team, with each member of the team taking a turn to change the order.
