- Cardboard base (approximately 5.5" x 2.5")
- Pom-poms (orange, black)
- Googly eyes

INSTRUCTIONS

- Align the two head/ neck pieces on top of each other. Then create a quarter inch flap by folding the straight edges away from each other. Glue the stacked head/neck pieces together except for the folded flaps. Repeat this step for the two tail pieces.

- Glue on googly eyes onto your dinosaur head. Then use your marker to draw in facial details like a mouth.
- Glue the folded flaps of the head/neck piece onto the dinosaur body on the left-most toilet paper roll. Then repeat this process with the tail piece onto the opposite side, the right-most toilet paper roll.
- For final details, glue the pom-poms onto the body as sprinkles. Then, let the dinosaur dry and add in your pencils!
